

KNOWLEDGE IS POWER. *Vu delivers knowledge in a succinct, user friendly format that empowers you to plan and execute your project with ease. Get a bird's eye view of your progress with intuitive filters and visual elements like charts, graphs, and interactive reports.*

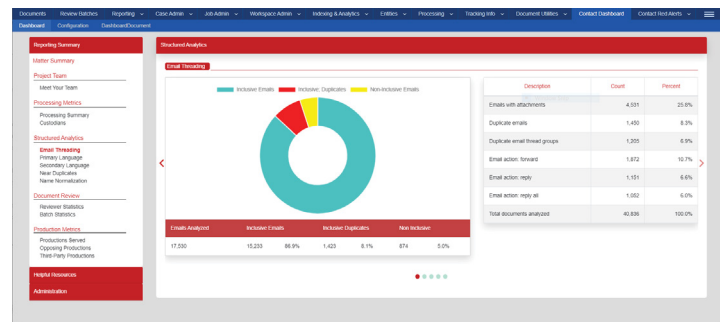

Get Data in a Dash!

The Vu Dashboards help you understand your data quicker than ever before. See how many custodians, documents, and duplicates you have on one screen. Instantly see the scope of your project and track each document through the entire eDiscovery lifecycle. Vu can also help you better leverage Relativity's analytics by revealing actionable trends.

Increase Efficiency

By identifying coding inconsistencies and duplicate documents, Vu limits unnecessary review time. With an interface that delivers crucial information about progress in seconds, your eDiscovery process happens quickly and smoothly without compromising quality.

Get to Know Your Team

With LinkedIn integration, you can learn more about the Contact Crew working on your project.
